Kenema District	99.2	97.5	92.3	95.1	98.7	97.2	89.7	93.1	100	98.2	89.3	95.8
Koinadugu District	97.3	97.3	94.5	96.1	98.7	98.7	94.5	97.4	98	98	88.5	96.7
Kono District	100	100	100	100	96.1	95.2	84.8	83.3	98.2	95.2	89.5	93.4
Moyamba District	100	100	97.5	99.1	99	100	89.4	98.1	100	100	100	100
Port Loko District	99.3	99	94.5	98.1	98.7	99.3	98	97.8	99.7	100	100	100
Pujehun District	91.7	91.7	90.4	90.7	100	100	95.8	100	100	100	95.5	100
Tonkolili District	100	100	99.7	100	100	99.7	99.2	79.6	100	100	94.9	69.6
Western Area Rural District	100	100	90.1	97.9	98.4	98.4	89.2	97.4	99.5	98.9	88.7	92.2
Western Area Urban District	89.2	88.6	85.8	76.1	90.7	87.7	81.3	48.6	98	95.9	95.5	99.2

- Data completeness was generally higher than 95% for all three quarters for all 4 PHU forms
- Western Urban District reported the least data completeness for all 3 quarters
- Even though CHWs have been stopped from working, the completeness of Community intervention forms was still over 80% in most of the districts, showing that there are still a remnant of CHWs still providing and reporting services

Hospital data completeness by districts, 1st, 2nd, and 3rd quarter 2021

- The Hospital data completeness was generally lower than 90% in majority of the districts for all three quarters
- Reporting completeness was lowest in Western Rural district (Note that Falaba district has no hospital) followed by Bo District Western Urban district
- Koinadugu hospital had the highest reporting completeness followed by Kambia government hospital and the Pujehun Government Hospital

RRIVs data completeness for Essential Medicines by districts for the first three quarters of 2021									
Period	Jan to Mar 2021			Apr to Jun 2021			Jul to Sep 2021		
Organisation unit / Data	RRIV_mchp_chp_Essential Medicines	RRIV_chc_Essential Medicine	RRIV_hsp_Essential Medicine	RRIV_mchp_chp_Essential Medicines	RRIV_chc_Essential Medicine	RRIV_hsp_Essential Medicine	RRIV_mchp_chp_Essential Medicines	RRIV_chc_Essential Medicine	RRIV_hsp_Essential Medicine
Bo District	88	85.4	5.6	86.4	86.5				
Bombali District	61.5	69		90.3	90.5	25	3.1		
Bonthe District	96.3	89.6	44.4	94.7	91.7	55.6			
Falaba District	91.9	100		88.3	100				
Kailahun District	96.7	92.9	44.4	96.2	88.1	33.3			
Kambia District	98.2	87.2	100	99.4	94.9	100			
Karene District	65.9	56.7	66.7	50.7	60	66.7			
Kenema District	100	100	91.7	99.4	100	75			
Koinadugu District	96.5	100	100	93.9	94.4	100			
Kono District	79.7	73.3	100	82.9	85	100			
Moyamba District	79.1	96.3	33.3	82.2	94.4	66.7			
Port Loko District	95.7	100	40	95.7	92.6	33.3			
Pujehun District	99.5	100	100	100	100	100	9.8		100
Tonkolili District	81.4	69.2	26.7	86.7	92.3	66.7			
Western Area Rural District	92.4	93.3	25	97.2	95.6		22.2	15.6	
Western Area Urban District	95.5	98.2	22.7	84.8	84.2	17.3			5.3

- RRIV reporting completeness is generally poor and much lower in Q3 than Q1 and Q2
- There is practically no data for Q3
- RRIV reporting completeness is also lower for hospitals than PHUs
- RRIV reporting completeness was lowest in Karene
- The district with the highest reporting completeness rate was Pujehun, followed by Koinadugu district

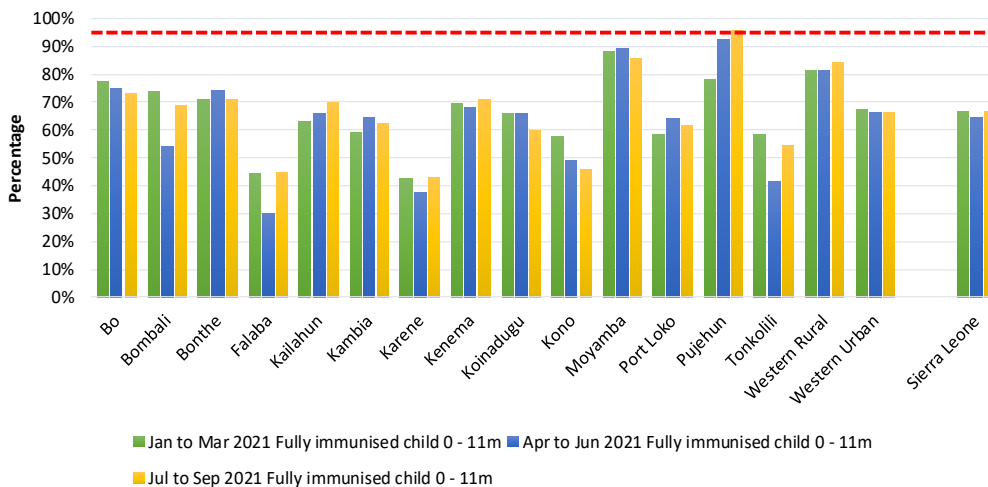

Child Health

BCG coverage for children 0-11 months by districts, 1st, 2nd, and 3rd quarter 2021

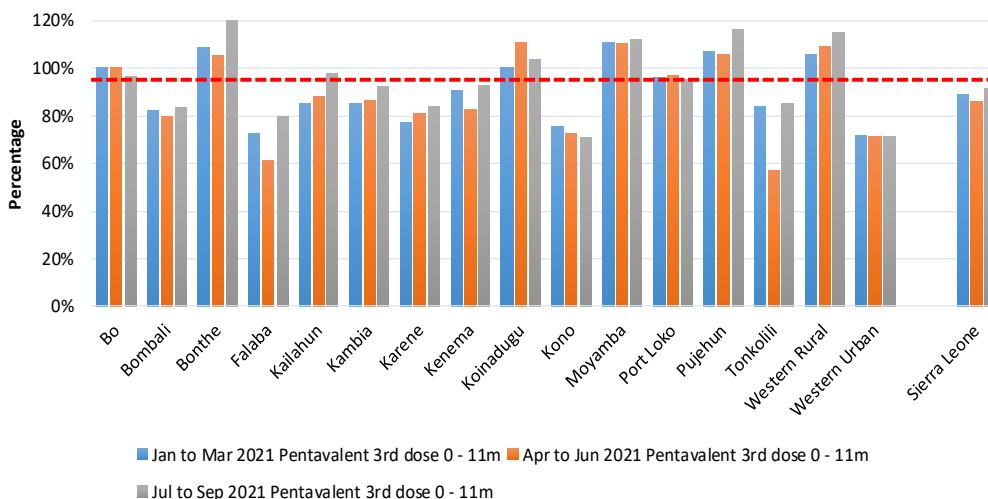

- BCG Coverage among children 0-11months was 69% in Q1, 75% in Q2, and 70% in Q3
- Pujehun district had the highest BCG coverage followed by Moyamba district
- Falaba district reported the lowest BCG coverage followed by Western Urban and Tonkolili district

Fully immunized child 0-11 months by districts, 1st, 2nd, and 3rd quarter 2021

- The percentage of fully immunised children under 1 year old was 67% in Q1, 64% in Q2, and 67% in Q3
- Falaba district reported the lowest fully immunization coverage, followed by Karene and Kono District
- Moyamba district reported the highest fully immunized coverage, followed by Pujehun district and Western Rural

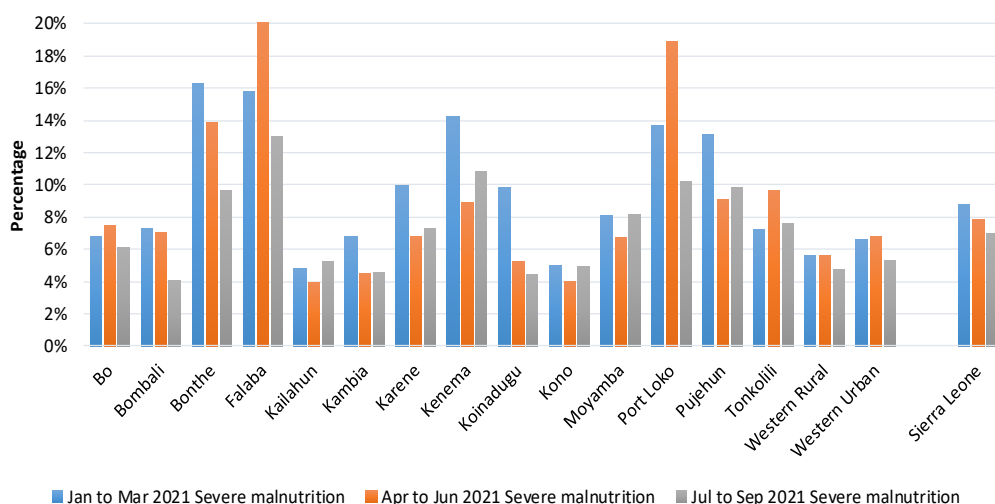

Penta 3rd dose coverage for children 0-11 months by districts, 1st, 2nd, and 3rd quarter 2021

- Penta 3 coverage is 89% in Q1, 86% in Q2, and 92% in Q3
- Falaba reported the lowest coverage of Penta 3 coverage, followed by Western Urban
- Bonthe and Moyamba districts reported the highest Penta 3 coverage

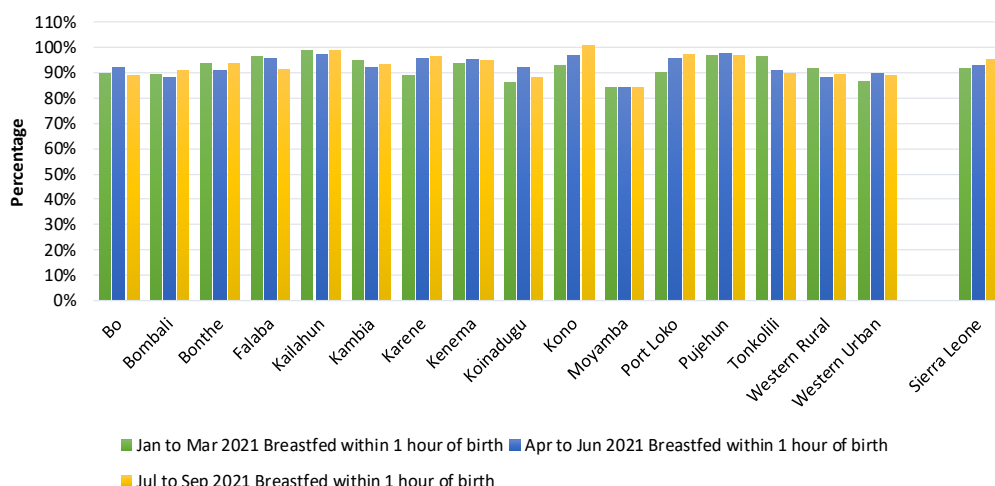

Nutrition

Severe Acute Malnutrition children by district, 1st, 2nd, and 3rd quarter 2021

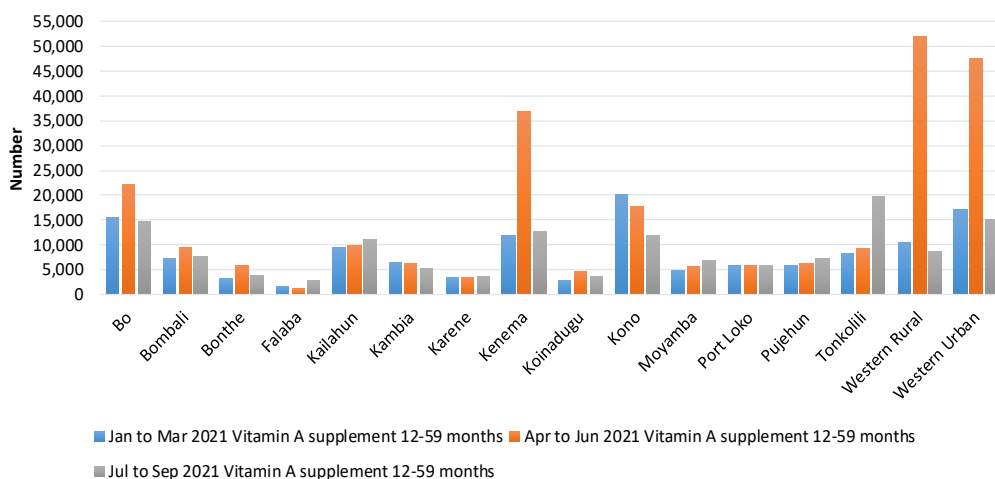

- The average Severe Acute Malnutrition (SAM) was 9% in Q1, 8% in Q2, and 7% in Q3
- SAM level was lowest in Kono and Kailahun districts
- Highest percentage of SAM among children was reported Falaba, followed by Port Loko and Bonthe districts

Infant breastfed within one hour of birth by district, 1st, 2nd, and 3rd quarter 2021

- Nationally, about 90% of infants are breastfed within one hour of births
- The lowest rate of infant breast fed within 1 hour of birth was reported in Moyamba followed by Koinadugu and Western Urban districts

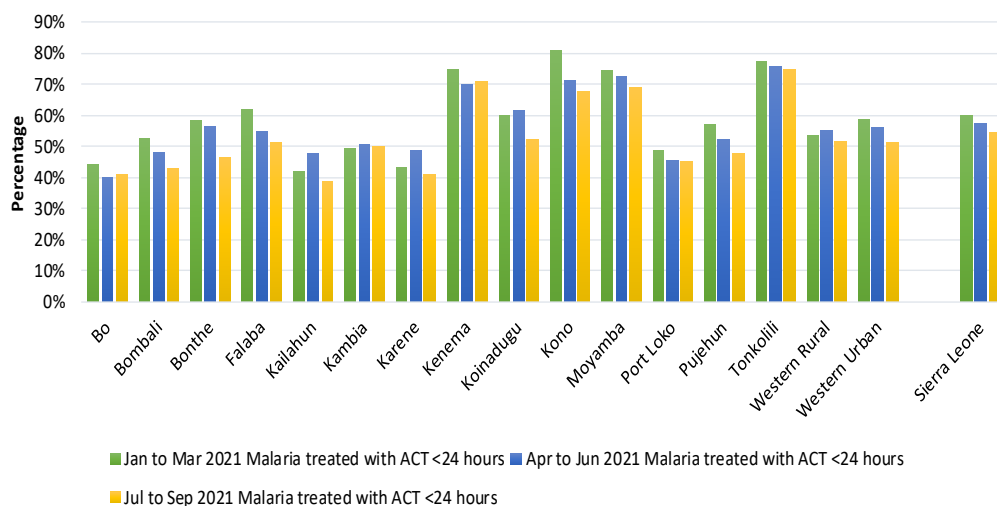

Vitamin A supplement for children 12-59 months by district, 1st, 2nd, and 3rd quarter 2021

- Uptake of Vitamin A supplementation was higher in Q2 than both Q1 and Q3
- Uptake of vitamin A supplementation was highest in Western Urban followed by Western Rural and Kenema district
- Lowest level of vitamin uptake was in Falaba followed by Koinadugu and Karene districts

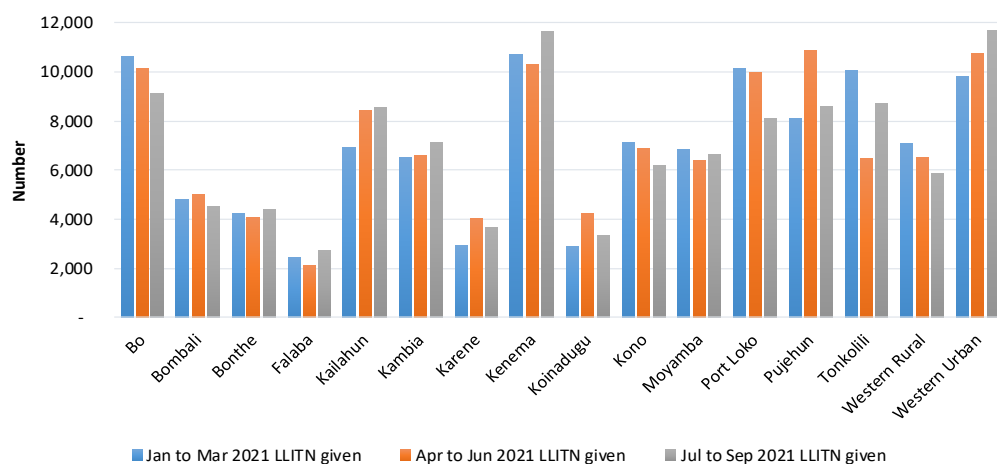

Malaria

Malaria cases treated with ACT within 24 hours of fever onset, 1st, 2nd, and 3rd quarter 2021

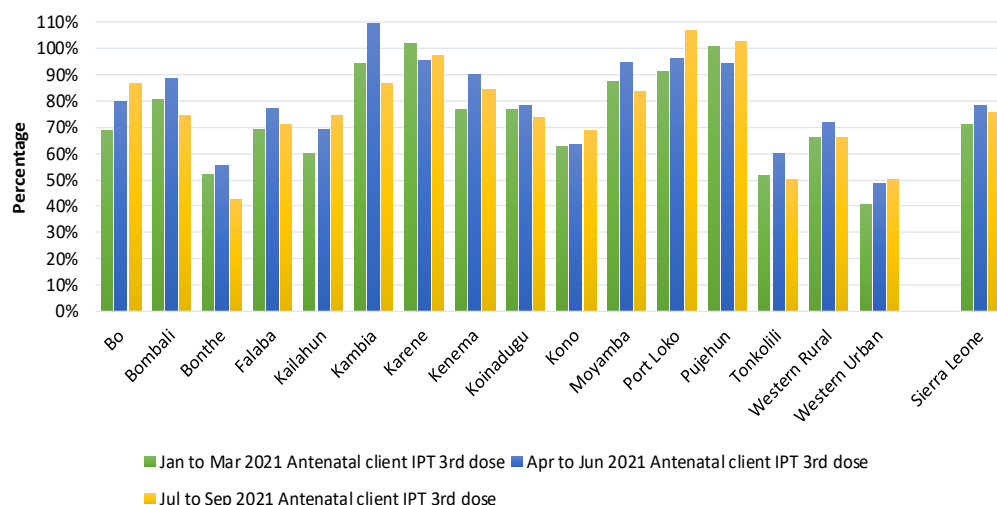

- On average about 55% of malaria cases are treated with ACT within 24 hours of onset. The coverage was slightly higher in Q1 than Q2 and Q3
- The percentage of malaria confirm cases that got ACT within 24 hours was highest in Tonkolili district, followed by Moyamba, Kenema and Kono districts
- The lowest ACT coverage rates were reported in Karene, Port Loko and Kailahun districts

Number of routine bednet distributed by district, 1st, 2nd, and 3rd quarter 2021

- Routine bednet distribution was highest in Q2 than Q1 and Q3
- Kenema distributed the highest number of routine bednets, followed by Western Urban and Bo districts
- The lowest level of routine bednet distribution were in Falaba, Koinadugu and Karene districts

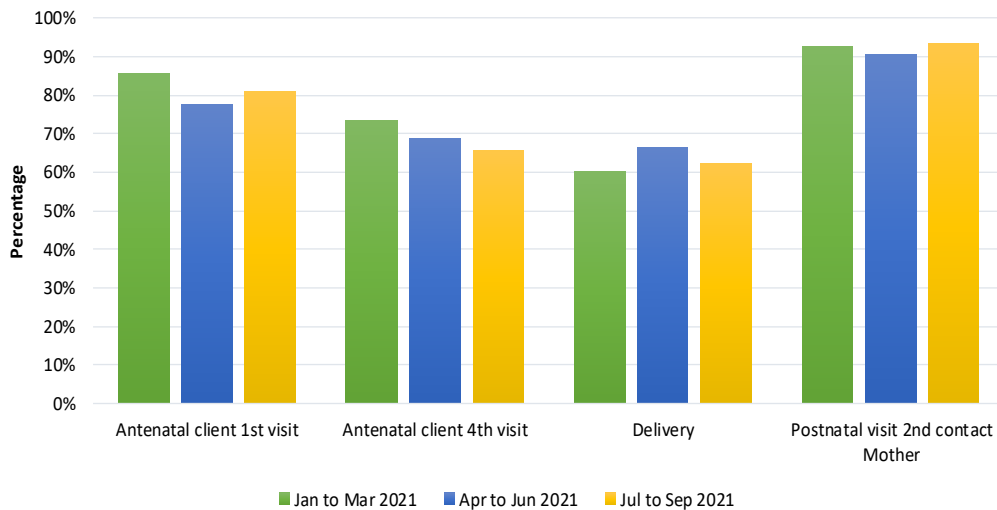

IPTp third dose coverage by district, 1st, 2nd, and 3rd quarter 2021

- National IPTp coverage was 71% in Q1, 78% in Q2, and 76% in Q3
- The highest coverage of IPTp is in Port Loko district, followed by Pujehun, Kambia and Karene districts
- Lowest IPTP rate were in Western Urban, Bonthe and Tonkolili districts

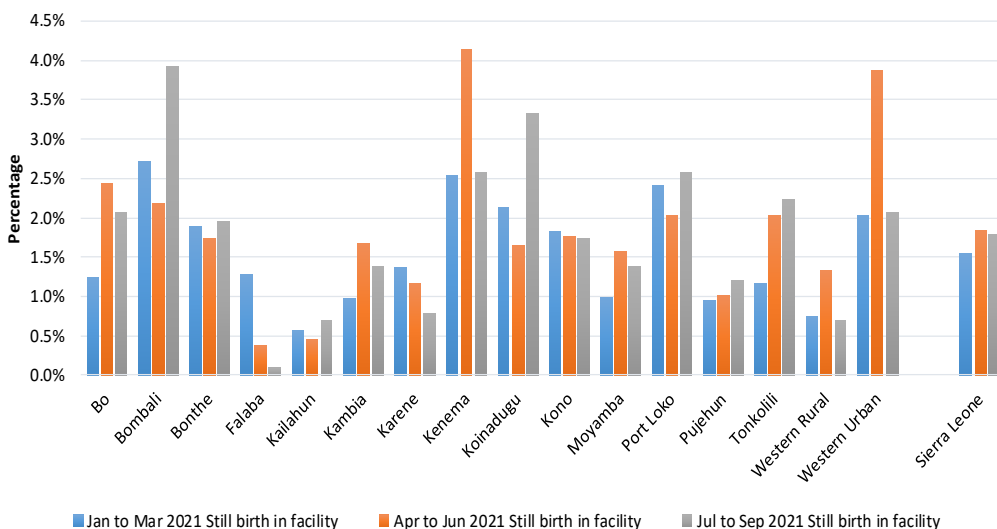

Reproductive Health

Maternal continuum of care by district, 1st, 2nd, and 3rd quarter 2021

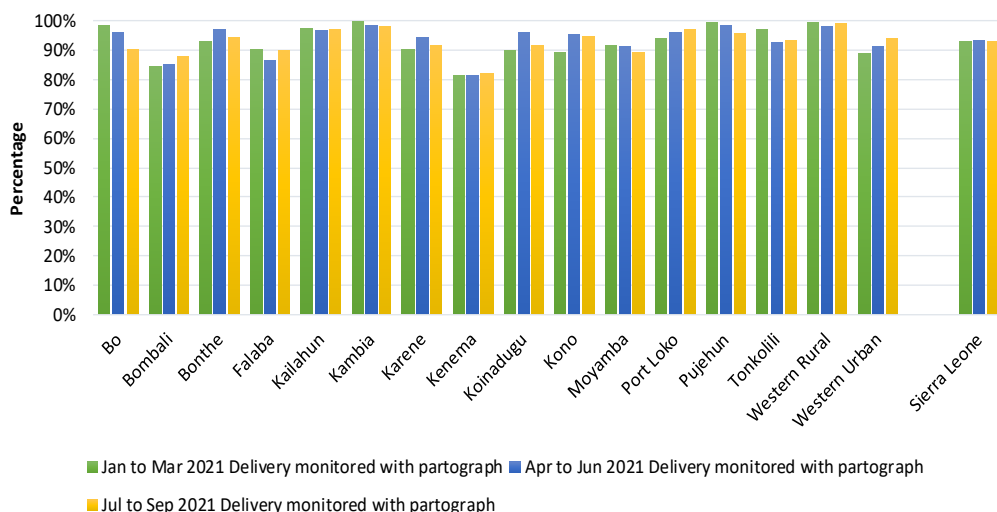

- On average 80% of pregnant women attended ANC 1, 70% attended ANC 4, 64% delivered at a health facility and 92% of mothers made second postnatal care visit
- ANC1 – ANC 4 drop out rate was highest in Q3 and lowest in Q2, while ANC4 – facility delivery drop out rate was highest in Q1 and lowest in Q2 and Q3

Facility still births rate by district, 1st, 2nd, and 3rd quarter 2021

- The average facility still birth rate was 1.6% in Q1, 1.8% in Q2, and 1.8% in Q3
- Facility still birth rate is highest in Kenema district, followed by Bombali and Western Urban District
- The lowest facility still birth rates were reported in Kailahun and Falaba districts

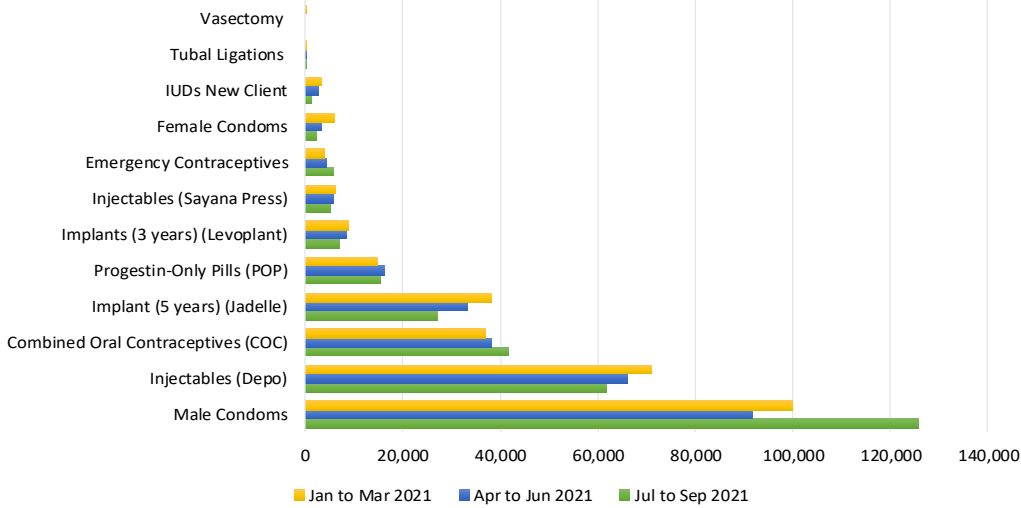

Delivery monitored with partograph by district, 1st, 2nd, and 3rd quarter 2021

- Generally, more deliveries were conducted using partograph in the 2nd quarter compared to the 1st and 3rd quarter 2021.
- Lowest percentage of deliveries monitored with partograph were recorded in Kenema District, followed by Bombali and Falaba Districts

Family Planning

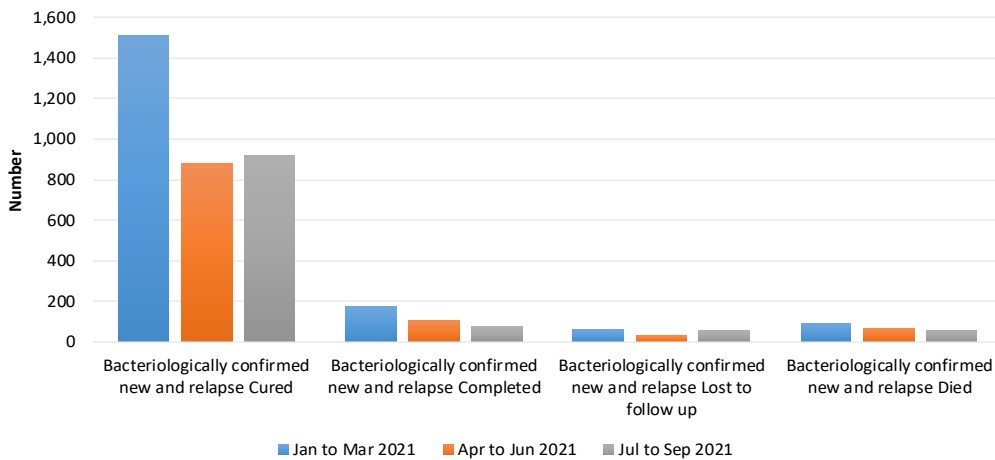

Number of clients receiving family planning commodities, 1st, 2nd, and 3rd quarter 2021

- Uptake of long-term method (IUD and Implant) was highest in Q1 and lowest Q3
- Use of injectable Depo is much higher than the pills in all three quarters

Tuberculosis

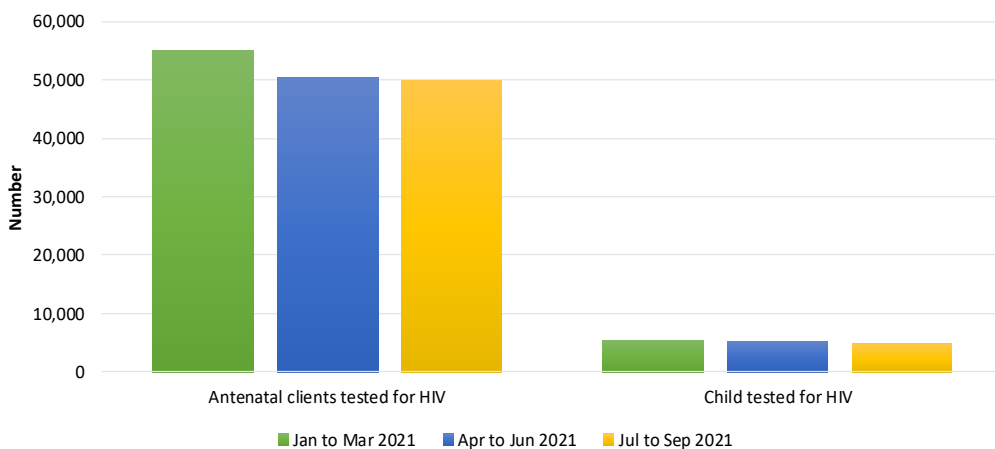

Tuberculosis treatment outcome, 1st, 2nd, and 3rd quarter 2021

- TB treatment outcomes was much better in Q1 than Q2 and Q3
- The number of bacteriologically confirmed cases that died during treatment was slightly higher in Q1 than Q2 and Q3

HIV/AIDS

Number of pregnant women and children screened for HIV, 1st, 2nd, and 3rd quarter 2021

- Slightly more ANC cases were tested for HIV in Q1 than in Q2 and Q3
- Children tested for HIV remained almost constant at about 4,500 per quarter

- This system was reactivated in the 4th quarter of 2020. To improve accessibility, we have created login credentials for partners with username: *partners*, and password: *Partners2021*
- Each indicator has defined thresholds to indicate whether or not performance is on track. The color coding below are used to show performance:

Red

Yellow

Green

Not on track

Progress, but more effort required

Target achieved or on track

- The upwards Arrows indicate progress when compared with the previous quarter; the opposite is true for the downwards arrow
- Cells with white background in any indicators means there is no data for that indicator(s)
